## PREFACE

This document has been produced by the Department of Finance and is intended to provide additional background information on the department which should complement the information contained in the 2000 Manitoba Estimates of Expenditure for the fiscal year ending March 31, 2001.

The contents of this supplement are organized into five parts. The first part provides an overview of the Department of Finance's 2000-2001 estimates of expenditure. The second part provides program and financial information including details of staffing requirements and expenditures. The information in part two is organized on the basis of existing main appropriations for easy cross reference to the 2000 Manitoba Estimates of Expenditure. Part three provides historical information while part four provides information related to the Department's Capital Investment. Part five provides a standard glossary of terms.

This document has been developed to assist Members of the Legislature in the review of the 2000 Manitoba Estimates of Expenditure. It is hoped that it will provide meaningful additional information and that it will meet the needs of the users of the information. I welcome feedback as to the usefulness of this supplementary information.

**DEPARTMENTAL OVERVIEW**

## **DEPARTMENT OF FINANCE**

### **MINISTER**

Honourable Greg Selinger

### **DEPUTY MINISTER**

J. P. Gannon

### **BACKGROUND**

The Department of Finance was formed in 1969. Prior to that year, the Comptroller-General and the Treasury functioned as two separate departments under The Treasury Act. In 1969, the Comptroller-General became the Provincial Auditor operating under The Provincial Auditor's Act and Treasury became the Department of Finance operating under The Financial Administration Act.

### **RESPONSIBILITIES**

The Minister of Finance is Chairman of Treasury Board and, through the department, manages and administers the Consolidated Fund and directs the financial affairs of the Province. The overall responsibilities of the Minister and the department include:

- providing policy direction on matters relating to financial management and administration;
- analyzing and appraising the economic situation and prospects in Manitoba in cooperation with other ministries as appropriate;
- advising on fiscal and other economic policies and measures;
- managing the requirements of the Province within appropriate fiscal policies, by action related to expenditures, lending, taxation, borrowing and cash management;
- advising on policies relating to Federal-Provincial fiscal and economic relations;
- representing the Province in negotiations and participating in meetings related to finance, taxation and economic development;
- maintaining the Provincial accounting and financial reporting systems; and
- providing direction to government for the appropriate and effective use of information systems technology.

The department's programs and services are budgeted under eleven main appropriations: Administration and Finance, Treasury, Comptroller, Taxation, Federal-Provincial Relations and Research, Insurance and Risk Management, Treasury Board Secretariat, Office of Information Technology, Amortization of Capital Assets, Net Tax Credit Payments and Public Debt (Statutory). Additional information on each of these main appropriations is included in the section entitled Part 2, Program and Financial Information. In addition to these programs and services, information on the department's Capital Investment is presented in the section entitled Part 4, Capital Investment.

## TREASURY

### SUB-APPROPRIATION 07-2c

### MONEY MANAGEMENT AND BANKING

#### OBJECTIVES

To effectively manage the short term borrowing and investing programs of the government.

To effectively manage trust money deposited with the Minister of Finance by crown corporations, agencies and departments.

To establish banking arrangements appropriate to the government's needs.

#### ACTIVITY IDENTIFICATION

Prepares cash flow forecasts detailing the government's anticipated daily receipts and expenditures, including its trust and administration activities. Management of daily bank balances and timing of long term borrowing is determined as a result of these cash flow forecasts.

Advises on and establishes procedures regarding the use of banking services and depositing for other departments and some agencies, and evaluates requests for new bank accounts and changes to existing accounts.

Maintains a central index of approximately 650 accounts representing all Province of Manitoba deposit accounts in all financial institutions in the province. These accounts include the Manitoba Public Insurance agents' accounts.

Negotiates contracts for banking and armoured car services for the province.

#### EXPECTED RESULTS

During 2000/2001, the Money Management program will involve managing the cash flow for over 1,600,000 payments representing \$11.0 billion of transactions processed through the government's disbursement system and over 1,000,000 cheques, money orders, drafts and other items representing approximately 24,000 bank deposits, processed through the accounts of the government.

Monitoring and management of the government's cash flow during 2000/2001 will result in the branch arranging 1,500 short term investment transactions aggregating over \$40.0 billion of investment purchases and \$3.0 billion of investment sales. The branch will also arrange for the issue of approximately \$400.0 million of promissory notes to finance temporary short-falls resulting from differences in the timing of government payments and receipts. Interest earned on short term investments is expected to amount to \$52.0 million while interest paid on the promissory notes issued will be approximately \$5.0 million. The branch monitors the credit status of approximately two dozen approved investments and maintains appropriate exposure limits for each, recommending changes where necessary to minimize risk.

Over 60 departments, agencies and crown corporations are required to deposit surplus funds with the Minister of Finance in interest-bearing trust deposits. These trust funds are expected to average approximately \$0.9 billion in 2000/2001. In excess of 2,500 trust deposit receipts will be issued and 2,700 payments will be processed by the branch in respect to these deposits. Interest paid on these trust accounts is expected to amount to \$51.5 million.

The branch has partnered with specific project areas of government which will see us become increasingly involved in Electronic Commerce. This will enable individuals and companies to interact and conduct business with various government departments using new technology. Included in these applications will be a credit card internet payment option and a pre-authorized collection option. Initiatives such as these will contribute to government efficiency and permit better access and service to the general public. We will continue to respond to other requests for change in an efficient and timely manner.

**TREASURY SERVICES**

**EXPECTED RESULTS**

In 2000/2001 the direct debt serviced by the branch is expected to approximate \$18.0 billion. This debt will be represented by debentures, treasury bills, promissory notes, Canada Pension Plan debentures and loans from the Government of Canada under special agreements, all payable in Canadian dollars, as well as 21 debenture issues payable in U.S. dollars, 2 debenture issues payable in Swiss Francs and 10 debenture issues payable in Japanese Yen. In servicing these foreign issues, the branch expects to administer over 150 swap agreements whereby, among other things, all the Swiss Franc and Japanese Yen debt have been swapped into fixed or floating rate Canadian or U.S. dollar liabilities.

Servicing the foreign debt obligations of the province is expected to require the purchase of approximately 100 million U.S. dollars. Minor amounts of Swiss Francs and Japanese Yen will be purchased to cover commission and other expenses on issues that have been swapped from these currencies to U.S. or Canadian dollars.

Servicing the long term investments of the province and its agencies is expected to require processing investment purchases of \$2.0 billion, sales and maturities of \$1.5 billion, and earnings of \$500.0 million and will require administering over 150 swap contracts by which investments denominated in foreign currencies have been swapped into Canadian dollars.

Servicing the short term investments of the province will require processing 3,000 safekeeping transactions respecting purchases, sales and maturities with a total value of over \$50.0 billion.

The branch's treasury payment system is expected to process cheques and electronic transfers with a total value of \$3.0 billion.

The branch will maintain loss-free safekeeping, payment and receipt operations.
